

Qweeby  
paves the way  
of your invoices

## Qweeby BUSINESS

### Efficient

Automate reminder strategies for each client

### Proactive

Detect potential risks of delays before the due date for payment

### Beneficial

Reduce your DSO by adapting your invoicing to your clients' behaviour

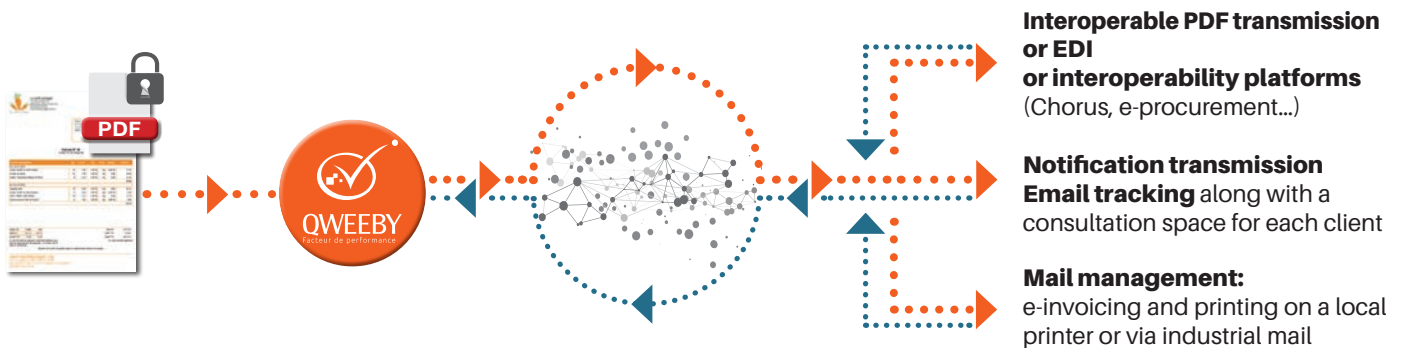

**E-INVOICING:**  
Qweeby paves the way  
of your invoices

With  
**Qweeby BUSINESS,**  
 anticipate late payments  
 from your clients

**Qweeby BUSINESS is an e-invoicing service that adapts to your clients' behaviour in order to detect on time risks of delays and automate personalized reminder strategies.**

| Directly from PDF invoices generated by your invoicing tool | Same processing of all flows and recipients, including EDI and paper | Simple economic model, to the invoice | Feedbacks on the processing of invoices from clients | Parametrized reminders | Detection of abnormal behaviours and risks of misuse | Transmission of invoices based on client behaviours |

Detect the risks of late payment and intervene before the due date to reduce your DSO. The traceability of dematerialized flows provided by **Qweeby Business** allows you to work precisely and to automate personalized proactive strategies. Your account receivable is under control and your teams focus on what really counts.

- Tracking of invoices issued thanks to personalized multi-criteria views
- Reminders strategies adaptable for each client or groups of clients
- Transmission of invoices adapted to the specific needs of each client
- Detection of abnormal behaviours and risks of misuse
- Interoperability with our main platforms and Chrous Portail Pro
- Support provided for implementation
- Intuitive interfaces to consult and find invoices issued and received
- Electronic storage of invoices for up to 10 years for both the sender and the receiver

## With Qweeby BUSINESS, you'll be able to:

**52** direct interoperability and EDI connections as well as **58 000** recipients registered on the Qweeby platform

*"Le papier c'est toujours un peu la bouteille à la mer... on est obligé d'attendre de constater l'impayé pour déclencher l'action. Ce qui est important c'est la traçabilité de l'état de la facture : une facture non téléchargée... pas besoin d'attendre l'échéance pour savoir qu'il va y avoir un problème. Tout devient dématérialisé, les paiements, les opérations bancaires... Les factures c'est une évidence que cela doit être un simple flux de données ; même l'image PDF va disparaître"*

**Eric Desquatreaux** - Avizo - client Qweeby depuis 2015

*"Qweeby is an e-invoicing expert. Thanks to Qweeby, our e-invoicing project has been a success. We have realized financial and productivity gains, while also offering a value-added service to our clients. We are thrilled to see this strategic project accomplished and to be able to count on the support of Qweeby's team since the beginning of our collaboration."*
